Description

Our food colour powder can be used for powdering surfaces – but also in liquid form, mixed with some alcohol, to paint ornaments and decorations. Use a fine brush and apply it on dry surfaces.
Even chocolate can be coloured with our food colour powder. Give free rein to your fantasies.
In our range you can find a lot of different colours.
Powder for dusting and painting on dry surfaces and for colouring oil- and grease-based food like chocolate.
Our food colour powder can contain azo dyes.

Fixed on cardboard for hanging up.
The item is excluded from the exchange.

Manual

Processing: Mix the food coloring powder with a little alcohol / water and carefully work into the relevant food, taking note of the dosage.
Mix the food coloring powder with a little alcohol and use it to draw pictures, ornaments, etc. on a dry subsurface (marzipan, roll-out fondant, etc.).
Decorations can be thinly dusted with the powder and a dry brush.
Suitable for dying food containing oil and fat.
