

## Clear acetat cake liner

Article number: 241046

Plastic – food safe  
Size: 10 cm x 20 m (160 µm)  
Colour: transparent

In extra stable quality with a thickness of 160 µm!  
For lining adrustable cake rings. Do NOT use for baking!

### Description

In extra stable quality with a thickness of 160 µm!  
For easy cake ring removal and extra-smooth cake edges. Can also be used for applying tempered glazes.  
Do NOT use for baking!

Just cut the film to the appropriate length, close and secure the ends with adhesive strips and put it into a pie ring or other bottomless form and you are ready to go...  
Fill layer by layer and let cool. Remove the cake ring before removing the film to prevent smudging and to achieve clearly defined filling layers.  
This clear acetat liner is made of high-quality, food-safe plastic. It is very inherently stable.  
We advise to wash up the foil with running, warm water after use. So it can be reused several times.

In folding box for hanging up.

### Manual

Just cut the film to the appropriate length, close and secure the ends with adhesive strips and put it into a pie ring or other bottomless form.  
Fill layer by layer and let cool. Remove the cake ring before removing the film to prevent smudging and to achieve clearly defined filling layers.  
Do NOT use for baking!
