### Description

With our food colour paste you can obtain various colour nuances and effects. It is highly concentrated and easily dispensable. Fondant and dough can not only be coloured, but also marbled in a simple way. We have a huge range of different pastes and pastel pastes – from black to pastel pink – we have them all! Not suited for chocolate!

High efficient food colour paste for colouring marzipan, fondant, cream, buttercream, icing, glazes, marmelade, salt dough, sugar and isomalt.

Not suited for chocolate.

Our food colour pastes can contain azo dyes.

It is recommended to use disposable gloves when processing.

Fixed on cardboard for hanging up.

The item is excluded from the exchange.

### Manual

Stir thoroughly before use!

Pick up a little food coloring with a toothpick and spread in and/or on the relevant food (only use toothpick once!). Then, depending on the food, work the paste food coloring in. The food coloring paste can be thinned down with a little alcohol; then, it becomes more transparent.

Not suitable for chocolate.

### Ingredients

Humectant: glycerol (E422); Thickener: silicon dioxide (E 551); Colourants: calcium carbonate (E170i), tartrazine (E102)\*, brilliant blue FCF (E133)

\*This colorant can impair activity and attention span in children.

Store in a dark, cool and dry place.

No food authorization in Norway because of E102.
