Description

Just hook the thermometer to the edge of the pot.
Our thermometers are made of high-quality stainless steel and are mercury-free.
Clean them with a damp dishcloth after use.

In folding box for hanging up

Manual

Simply hang the thermometer on the edge of the pan. Approx. 150-200 g of fried food can be deep-fried in a kilo of fat.
Please see your cook book for the relevant frying temperature and time. After use, wipe with a damp cloth.
