Description

With these cutters you can easily cut out small and/or large terraced cookies. Bake the parts and place them on top of each other with some jelly, jam, icing or nut nougat cream - done.

These six cutters are made in such a way that they can be plugged into one another without additional packaging and stowed away in the cupboard to save space after use.

This cookie cutter is made of polypropylene. The cutter is very robust and also well-suited for children's hands.

We advise to wash up the cutter with running, warm water straight after use.

Fixed on cardboard for hanging up.
