

Edible sprinkle decoration - Diamond Dust

Article number: 309906

Powder - finely dosed
Colour: blue
filling quantity: 90 g
glimmer

Powdered decoration mix made of dextrose
AZO free

Description

Decorate your special treats in grand style! The soft, glimmering effects of Diamond Dust are a highlight for self-baked treats of all kind and add some glitter to your everyday-life.

The powdered decoration mix makes a glamorous finish for your cookies, cupcakes and other pastries and tastes slightly sweet. Diamond Dust is suitable for the dry surfaces of sugar paste or cookies, but also fatty surfaces made of whipped- or buttercream get a fairylike shimmer. The dosage is easy thanks to the integrated dispenser in the lid.

Diamond Dust blue is a powdered decoration mix made of dextrose.

The glitter effect results from pearlescents pigments made of natural, mineral mica (glimmer).

This substance grants Diamond Dust the fine, radiant light reflection and guarantees effectful decorations.

With AZO-free colorants. Depending on the batch, colours may vary slightly.
