

Food colour - Powder

Article number: 390157

Powder – highly productive
Colour: pine green
filling quantity: 7 ml

For sprinkling and drawing on dry subsurfaces such as marzipan, roll-out and decorative fondant, isomalt and white chocolate.
Suitable for dyeing food containing oil and fat.

Description

Our food colour powder can be used for powdering surfaces – but also in liquid form, mixed with some alcohol, to paint ornaments and decorations. Use a fine brush and apply it on dry surfaces. Even chocolate can be coloured with our food colour powder. Give free rein to your fantasies.

In our range you can find a lot of different colours.

Powder for dusting and painting on dry surfaces and for colouring oil- and grease-based food like chocolate. Our food colour powder can contain azo dyes.

In display package for hanging up. With instructions.
The item is excluded from the exchange.

Manual

Processing: Mix the food coloring powder with a little alcohol / water and carefully work into the relevant food, taking note of the dosage.

Mix the food coloring powder with a little alcohol and use it to draw pictures, ornaments, etc. on a dry subsurface (marzipan, roll-out fondant, etc.).

Decorations can be thinly dusted with the powder and a dry brush.

Suitable for dyeing food containing oil and fat.

Ingredients

Colorants: tartrazine (E102)*, brilliant blue FCF (E133), vegetable carbon (E153)

*This colorant can have a negative effect on activity and attention in children.

Store in a dark, cool and dry place.
