### Description

Just hook the thermometer to the edge of the pot.  
Our thermometers are made of high-quality stainless steel and are mercury-free.  
Clean them with a damp dishcloth after use.

In folding box for hanging up

### Manual

Simply hang the thermometer on the edge of the pan. Approx. 150-200 g of fried food can be deep-fried in a kilo of fat.  
Please see your cook book for the relevant frying temperature and time. After use, wipe with a damp cloth.

SAFETY NOTE: Follow the instructions for use!
