Description

With these cookie cutters you can cut out cookies with three different motives. The embossing inserts can be exchanged and the integrated ejector mechanism makes it easy to place them on the baking sheet. After baking, you can garnish the cookies with food colour pencils, icing, chocolate and sugar pearls. For cleaning, you can disassemble the cutter.

Enjoy baking and decorating!

The cookie cutter is made of high quality stainless steel and food-safe and stable plastic. We advise to wash it up with warm running water straight after use. Of course it can also be washed in a dishwasher.
