Description

With this melter you can easily melt chocolate and keep it in a steady temperature of 60°C for further processing. The matching lid makes it possible to keep the temperature of the chocolate for a longer time. The container has a capacity of 1.5 litres. A thermostat controls the temperature continuously, the control light lights up until the set temperature is reached.

Of course you can also keep other meals warm in this melter.

The removable 1/6 GN stainless steel container (16,5 x 18 x 10 cm) with lid are stainless and dishwasher-proof.

The melter is to be cleaned by hand with a soft dishcloth and mild detergent.

In folding box. With operating instructions.
